CHARLES E. HUGHES, OF NEW YORK.

THE six weeks extra winter coming to us under the dispensation of Mr. Gee Hog, expire by limitation today and Gentle Annie is about due. Still, you had better "stick to your flannels till your flannels stick to you."

KENTUCKY is the land of "special Judges." We have all kinds of Judges in Kentucky and it is coming to the simple proposition of: "show us the man and we'll show you the law." In other words, a man's politics is to rule in the selection of the Judge to sit in his case. The Lord help and pity the state thus hampered and afflicted.

BOUNTIFUL crops alone do not establish ideal conditions in the household of the Nation. It does not require a gray beard to recall the time when corn was so plentiful in Kansas and such a drug on the market that it was used as fuel. At the same time poverty stalked in the big cities of the country and smokeless chimneys sent dismay into the hearts of those who were willing to work for almost any wage. There have been some splendid harvests of wheat in the United States which have netted the growers hardly a cent of profit. A large crop for which there has been but a small market has caused many a farmer to plaster another mortgage on his farm. The Tariff, by stimulating American industries, has provided a market for the products of the soil at a price that pays.

RICHARD H. EDMONDS, Editor and General Manager of The Manufacturers' Record, of Baltimore, in a recent letter to The Middleboro News, writes as follows concerning the vast coalfields that underlie Eastern Kentucky—

"Kentucky has a wealth of coal, the magnitude of which can only be comprehended by a comparison with other regions. Kentucky has about 50% larger coal area than Great Britain, now mining about 250,000,000 tons of coal a year, and which has about 10,000 square miles of coal territory, while Kentucky has over 16,000 square miles.

"The wealth, the financial power, and the domination of the world's shipping interests of Great Britain are all largely staked on coal, and yet Kentucky, even Eastern Kentucky alone, has a greater wealth of coal than all Great Britain. What broader vision of the illimitable possibilities of the future can be presented than this statement itself?"

WHEN R. M. ALLEN, Secretary of the Kentucky Pure Food Commission, concluded a recent address on pure food, the big audience of men and women found itself wondering whether suicide could not as well be accomplished by waiting as by taking an overdose of some known poison. They heard that catsups, jellies and preserves are colored with the same dyes that are used in making a new brown dress out of the old white one; that milk and meat are preserved with the same grewsome injection that makes the corpse look natural to sorrowing friends; that the only time most peach, apple, plum, quince, blackberry and strawberry marmalades approach the fruit for which they are named is when they pass through a fruit country on a train.

A CARD.

To the Republicans of Mason county: I am a candidate for the Republican nomination for Railroad Commissioner in this, the Third Railroad Commission District of Kentucky, and earnestly hope I may have the honor of the active support of every Republican in Mason county and throughout the Ninth District.

This is not, however, a personal matter, but a District matter in which every Republican in the Ninth Congressional District should feel an active interest. We have more votes in convention than any other Congressional District interested, yet we have never been honored with the nomination.

Is it a reflection on our political ability or a contempt for our political importance that we have heretofore been unable to win it? I am satisfied we can win it and we ought to do it this year.

I believe with all my heart that if I can have the united and unanimous support of the Ninth Congressional District that I can win this nomination. I will feel especially honored if I can have the support of the splendid Republicans of Mason county, and still more so if her able men will take an active interest in the organization of the convention.

I presume it is unnecessary for me to say that I am a Republican. People who know me know my political predilection. I am a Republican, proud of the fact that I belong to the greatest, grandest, most patriotic and most successful political party in the history of the world.

I shall certainly appreciate anything my friends in Mason county may see fit to do for me in the matter, and hope to see a goodly number at the convention at Mt. Sterling on April 24th. Faithfully yours,

HOMER B. BRYSON.

### HARRY THAW

As Diagnosed By Dr. Langdon a Cincinnati Expert.

"Evidence would indicate Thaw was a type of primitive organism, not far developed beyond the savage."

"I do not blame Harry Thaw, and for the same reason that I would not attach blame to a financial genius, for instance, who amassed no less than a billion."

"Doctors, knowing human weaknesses, are probably more lenient than others. There is no ethical right to inflict capital punishment. If Thaw is found to be in such mental condition that a repetition of the White tragedy may be threatened, he should be placed in some high-priest sanitarium, where he will have the liberty of the grounds and other comforts."

"Thaw was unfortunate both in his birth and subsequent environment. Thaw's note writing in court indicates his lack of balance and discretion."

"His mind was defective, but there are more defective minds outside of asylums than inside."

"A person in love is not in a normal mental condition during that period."

### FIRST TO RESCUE

Fortunate Arrival of Pickett Oldham at Scene of Mishap

The Times-Star says by a strange coincidence, Pickett Oldham, of 22 East Seventh street, a son of Mrs. George Oldham, who was run down by a carriage at Fourth and Broadway, Cincinnati, Monday evening, alighted from a streetcar just in time to catch the horses, and but for him the driver would have escaped without giving his name.

Mrs. Oldham was the victim of an accident about six months ago.

She and a daughter, Miss Mary, were sleeping in a folding bed at their home in Ludlow street when it closed upon them.

Mrs. Oldham was severely injured about the chest and has been in bad health since.

She and her daughter would have died of suffocation but for the timely assistance of a son.

The Cincinnati Times-Star yesterday contained pictures of Mrs. George W. Oldham, her granddaughter, little Miss Elizabeth Wilson, aged 5 years, and Miss Katherine Bacon, who were run down by a vehicle at Fourth and Broadway, Cincinnati Monday night. The Times-Star says that Mrs. Oldham is perhaps fatally injured.

DEAFNESS CANNOT BE CURED  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. P. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

### CAMILLE D'ARVILLE IN "THE BELLE OF LONDON TOWN."

"The Belle of London Town," in which Camille D'Arville, the celebrated comedienne and prima donna is to be seen at The Washington Monday night, March 18th, has a rare distinction among the musical plays of today. It is not only tuneful and dramatic in construction and effect, but differs widely from anything that has been seen here. First and foremost the piece lays claim to distinction in that it has a plot, a genuine, comprehensive, vital, gripping plot, quite able to stand alone without the padding of interpolated numbers, and one which does not go astray in a maze of songs. This variation from the standard type of musical comedies has been highly praised by the Metropolitan critics and declared to have many advantages. The select few on the stage please the eye and ear and the rapid action gives the whole a sweep and snap that is very refreshing at all times. In order that Miss D'Arville may be seen to every advantage on tour, her managers, the Shuberts, have surrounded her with the original New York cast, while the beautiful and elaborate scenic production has been taken on the road intact.

### NANCY COMBS

Aged Nineteen, Jailed For Moonshining

Nancy Combs, of Perry county, aged 19 years, is now in Jail at Frankfort, to be tried on the charge of running a blind tiger.

Nine men accompanied Mrs. Combs on her trip. They are charged with moonshining. In the number were Green Neace, William Allen, James I. Hughes, Andrew Campbell, Sam Combs, Lee Mann, Potter Napier, Clayburn Combs and Perry Grigby.

Mrs. Combs was the star attraction of the crowd.

She comes from a noted family of moonshiners, as her husband, her father and several of her brothers have been charged at various times with distilling moonshine whiskey, and will be tried with her at Frankfort.

The trip was the first that she had ever made on a train, and in fact she had never seen a train until she boarded one at Jackson.

# Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoe, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. It does this by regulating the functions and toning up all the internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

## SLAUGHTER OF INNOCENTS

Six Score Sheep Killed in Garrard County By Worthless Curs

Recently, near Lawrenceburg, in Garrard county, A. M. Bourne, W. S. Bourne, Thomas White and Thomas Herring, farmers, lost probably \$1,000 from a raid of worthless dogs upon their respective flocks of fine sheep.

The sheep were allowed to graze in the open fields, and a hundred were found dead, while many were left torn and bleeding.

It is supposed that as many as fifteen dogs were in the band, and the farmers will apply for enough of the Garrard county dog tax fund to reimburse them for their loss.

If this is paid in full it is said the fund will have been entirely exhausted.

Sunday night dogs made a raid upon the flock of sheep belonging to J. W. McClure in the same county, killing eight and crippling several more which will die.

In some places farmers keep a few goats with their sheep, it being a well known fact that dogs that are given to worrying sheep will not readily attack a flock of sheep in which there is a goat or two.
